„My pool world as it pleases me!“

Reinvent your swimming pool

Highest quality | Brilliant print | Easy cleaning | Extremely scratch-resistant

Our: „This is awesome!“ Programme

Printed and finished liner

**Us.
Many faces.
One company.**

Our vision

In business for thirty years. Three decades characterized by passion. Know-how and experience for Marketing and advertising technology. Always „the special“ in view. This is Panorama Group.

Together with our distribution partners we transport a feel-good atmosphere every day and a good attitude towards life in every region. The first orders were directed at private customers who wanted to design their pool a little bit with borders and floor motifs. More advertising solutions and children's toys, our AQUA Games, were be found.

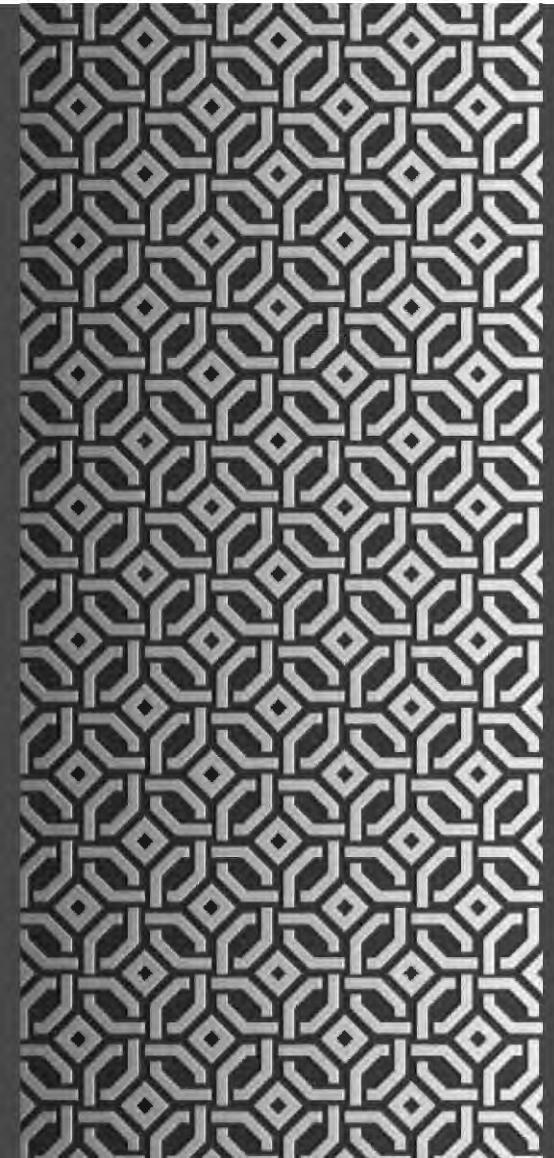

Since 2015 we have been researching solutions not only working with stickers, but also to print and finish swimming pool liners directly. Since 2020 we are able to combine brilliant printing solutions with extreme and worldwide unique scratch resistance.

Now we can give free rein for our vision to create completely printed theme pools in each size and shape.

Creative swimming pool design

For new buildings and existing plants

Our possibilities

1

Basic elements - Modular system

Modular construction system

consisting of:

Straight lines, inner and outer corners, various middle parts

Choose between the different elements and colours! So you can build your individual design and adjust everything on site.

Design with our System elements
your NEW or EXISTING
swimming pool!

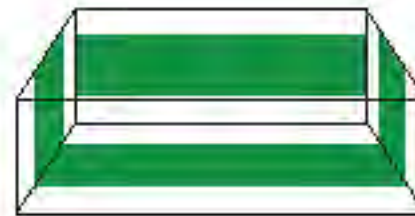

- Modular system
- create one's own
- gluing or welding
- inexpensive
- short-term realization
- practicable without expert

2

Bottom / side Design panels

DESIGN LINERS!

Lay wide design panels completely through your swimming pool!
The result is unique, modern and individual!

You have unlimited possibilities. Floor or walls only or both.
Here too, there are various implementation options available for you.

Design with our Design slides
your Fibreglass, concrete and
tiled pools or foil pools

- Design liners for swimming pool
- design and execute by yourself
- gluing or welding
- inexpensive
- short-term realization
- practicable without expert

Complete freedom of design for private pools, children's pools, public swimming pools as well as hotel facilities and adventure pools

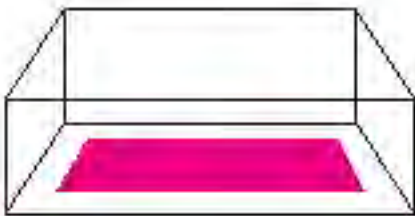

3

Standardized Design Motifs

Select finished graphics!

Select high-resolution finished images with fixed sizes and design your swimming pool with numerous motifs and shapes.

„BLUE was yesterday!“

Liven up your swimming pool thanks to great graphics. Even 3D effects can be created - deceptively real looks in no time at all.

Give your pool world a new dimension. Exclusive design, unparalleled quality, fast delivery to the reasonable price

- blue was yesterday
- Pictures for the swimming pool
- design and execute by yourself
- gluing or welding
- inexpensive
- short-term realization
- practicable without expert

4

The Complete Swimming pool

Create your own theme world!

Through professional planning, design and installation you will receive an extraordinary, fantastic bathing landscape.

There are many ways of creation. Design the floor or the walls only or both. We've a plenty of creative designs or mail us ur desired motif!

Private pool facilities
Children's pools
Public pools
Hotel facilities
Adventure pools

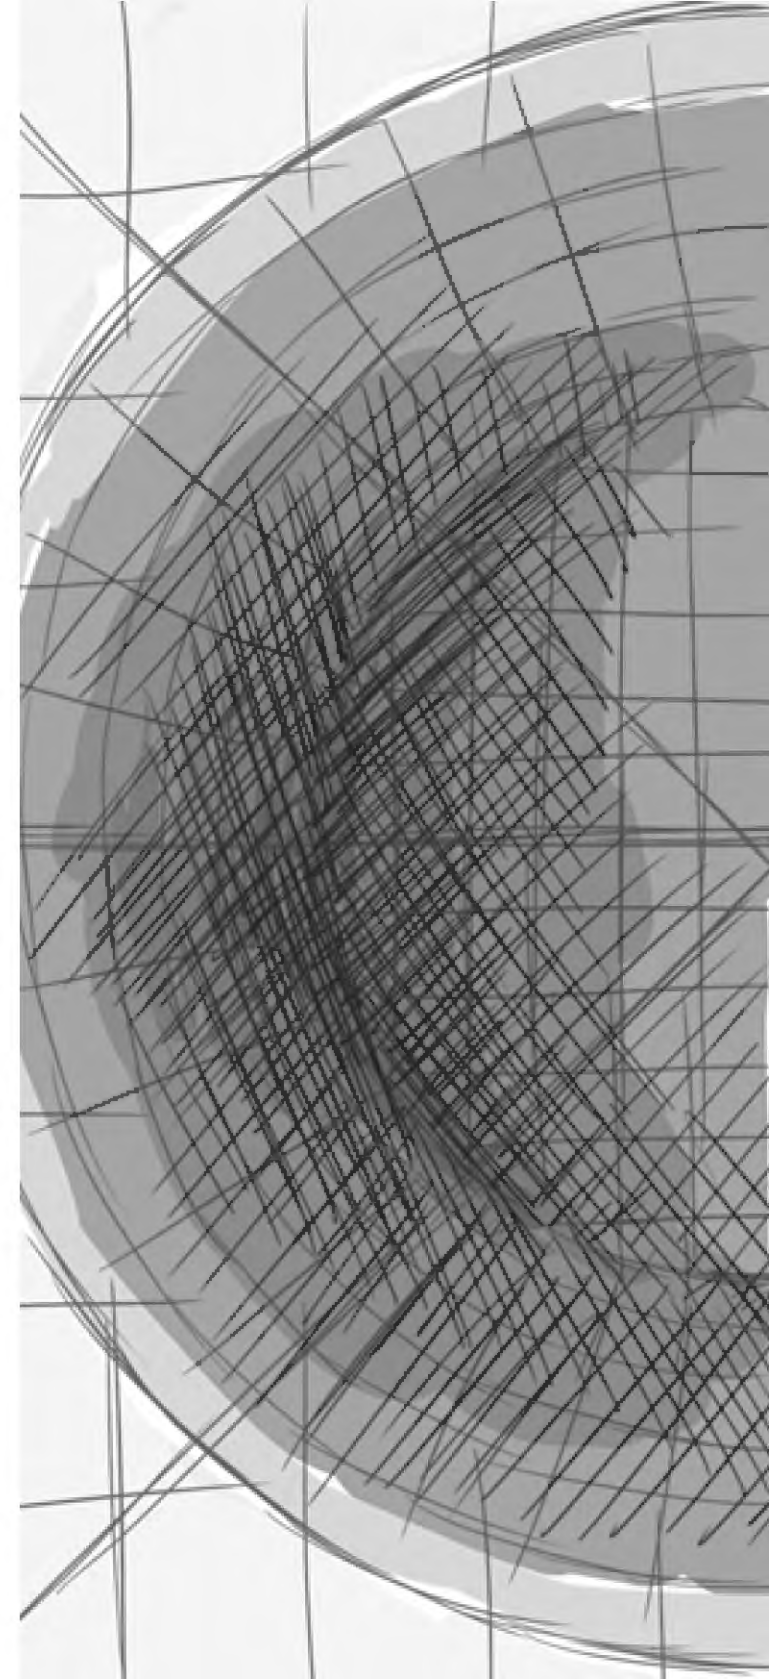

- blue was yesterday
- completely designed swimming pools
- Wall and panels
- gluing or welding
- extremely scratch-resistant
- easy to clean up
- this is awesome

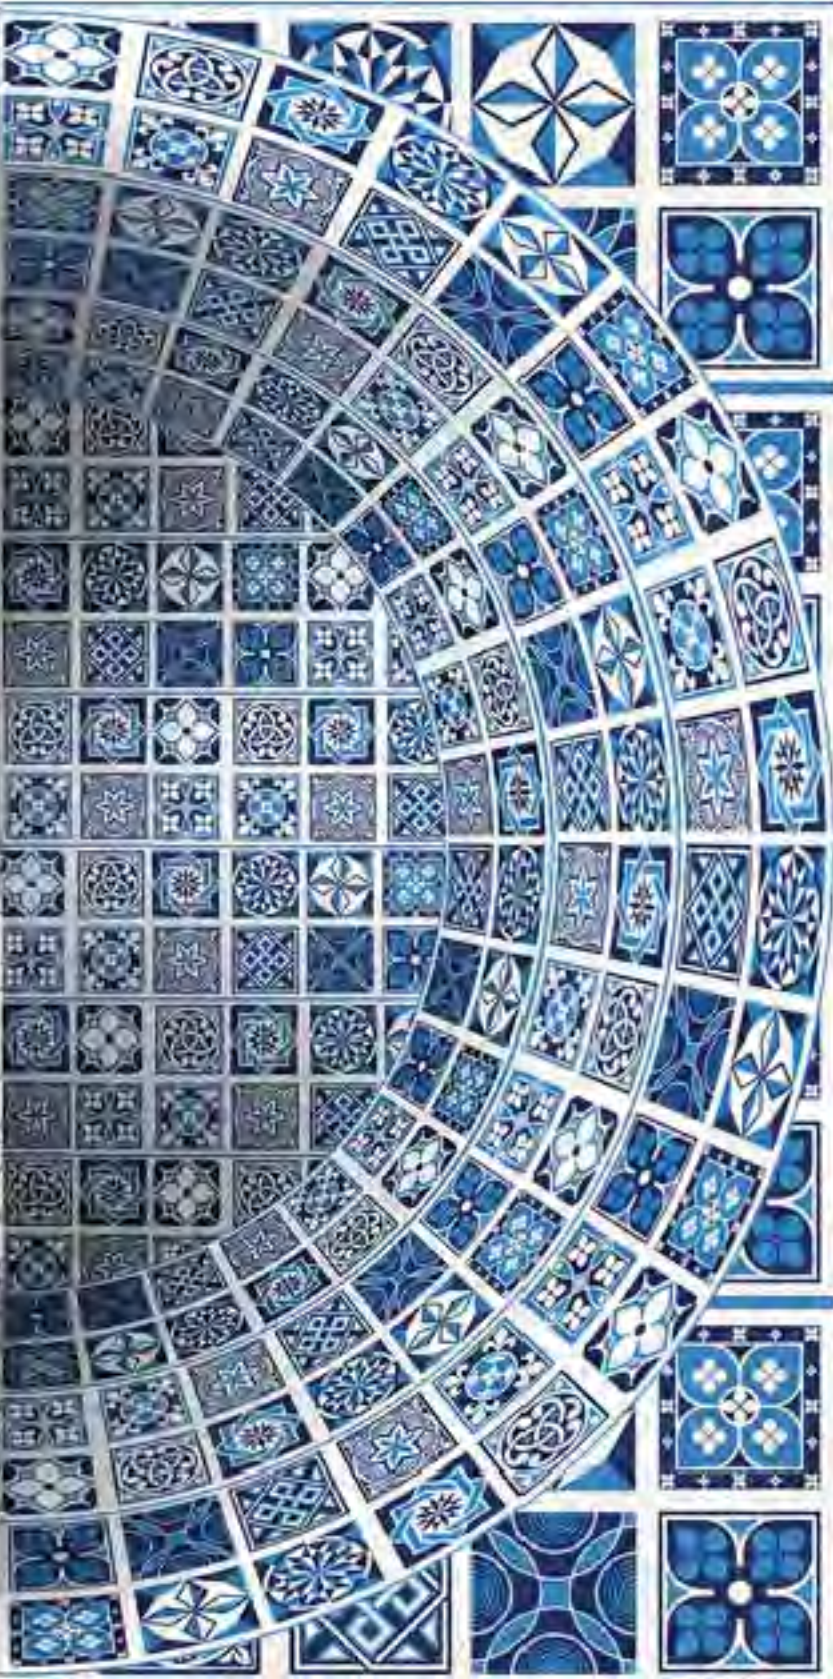

We're Planning, Drafting, Designing, Manufacturing, According to your wishes

No matter if you plan a new project or designing your existing swimming pool, our foil linings are the best alternatives, to make your pool very special.

All foils are high quality, digitally printed, **Made in Germany** and have a special coating, which protects against chlorine and wear and tear. Our graphic designers create the desired layout in 3D, to make the view as realistic as possible. After measurement and designing the production can start in our company.

Depending on the effort (measurement, planning, graphics designing, production and dispatch) the delivery time is up to 6 weeks.

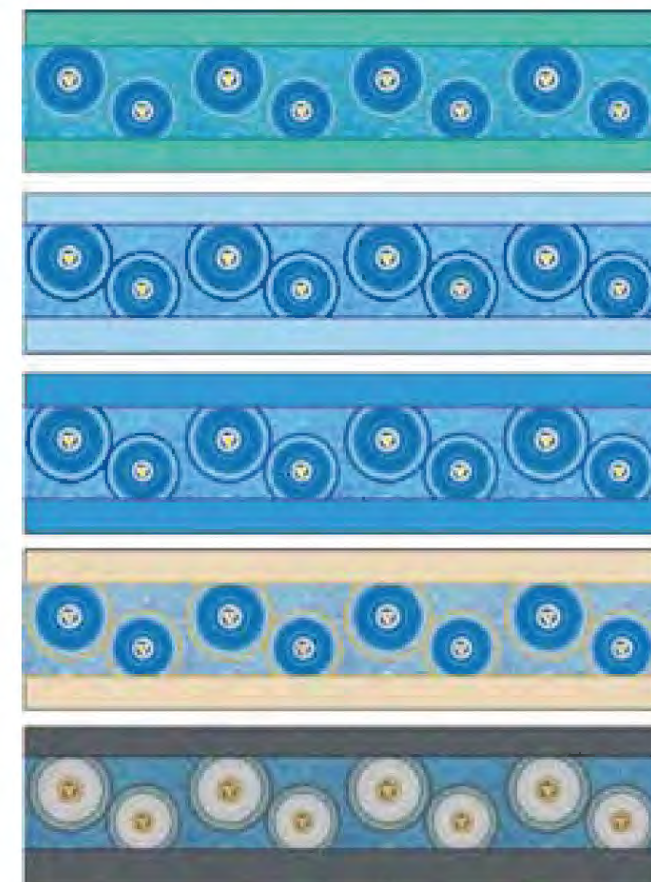

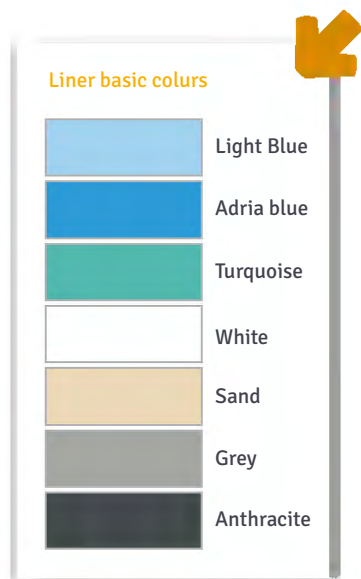

Our high-quality fabric-reinforced swimming pool membranes are used in public swimming pools, pools in leisure facilities, hotel pools and exclusive private pools. They are the ideal material for lining fixed pools of all sizes and shapes, both indoors and outdoors.

Extremely tear-resistant and hard-wearing, their quality ensures lasting swimming comfort. The lining is resistant to weathering and cold and offers the highest standards of hygiene. Due to its antimicrobial finish, there is no chance for any fungi and bacteria. Our SBG swimming pool liners are tested according to the high requirements of the **German Federal Health Office** and meet all chemical and physical guidelines.

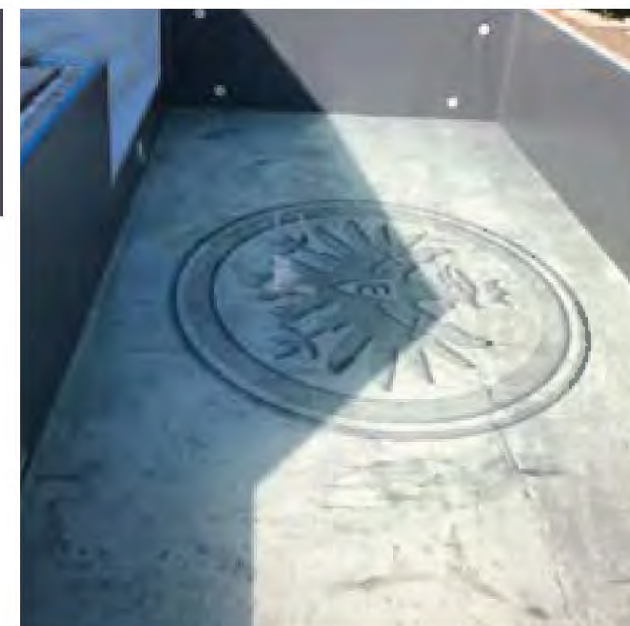

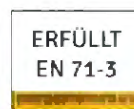

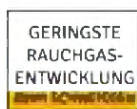

The membranes are quickly and easily welded together on a protective and separated layer of fleece to form a seamless, homogeneous and 100% waterproof surface.

... the perfect result...

The colour matching of our produced design sheets is a special service which we are happy to offer you. We adapt our designs and graphical works to colour and film requirements. Combine as you wish!

Colour matching

We match up our designs on coloured
films from the manufacturer
for a perfect result

Basic elements - modular system

**Create with our design elements
the NEW or USED swimming pool!**
Display, adjust, set and done!

For all pools - foil, liner, tile, Gfk, metal, concrete and PVC

Basic elements - modular system

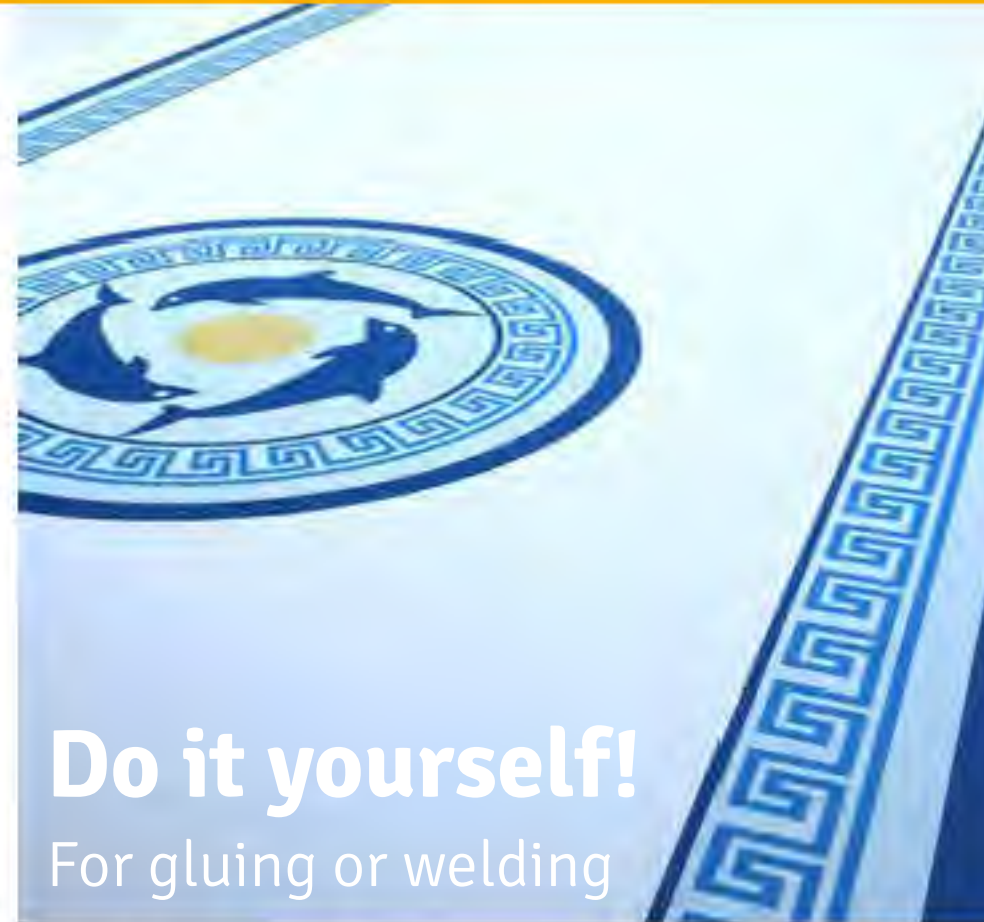

Embellish your new or existing swimming pool very easily with our modular system! Create the perfect design for your pool with our modern design elements.

The prefabricated elements are smooth to assemble by yourself and can be used for the floor as for as the side walls. Due to the different colours and sizes there is also the perfect solution for you. We are also happy to implement your own ideas and wishes. Please contact us!

Our design elements are suitable for any load-bearing substrate and can be easily laid by yourself with a little manual skill.

First fix the elements with crepe until everything is in place where it belongs. Then, depending on the material, glue or weld them together!

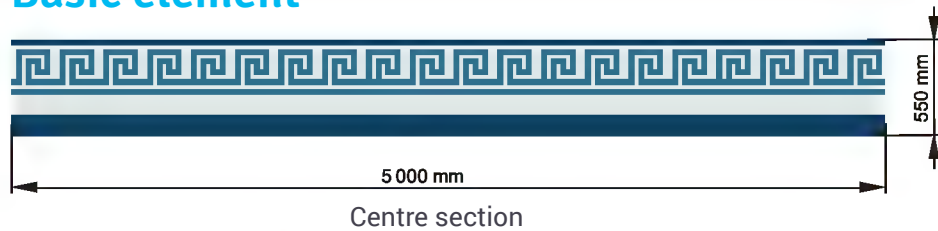

Do it yourself!
For gluing or welding

Design elements

Choose between the different elements and colours!
Build your individual design and adapt it on site.

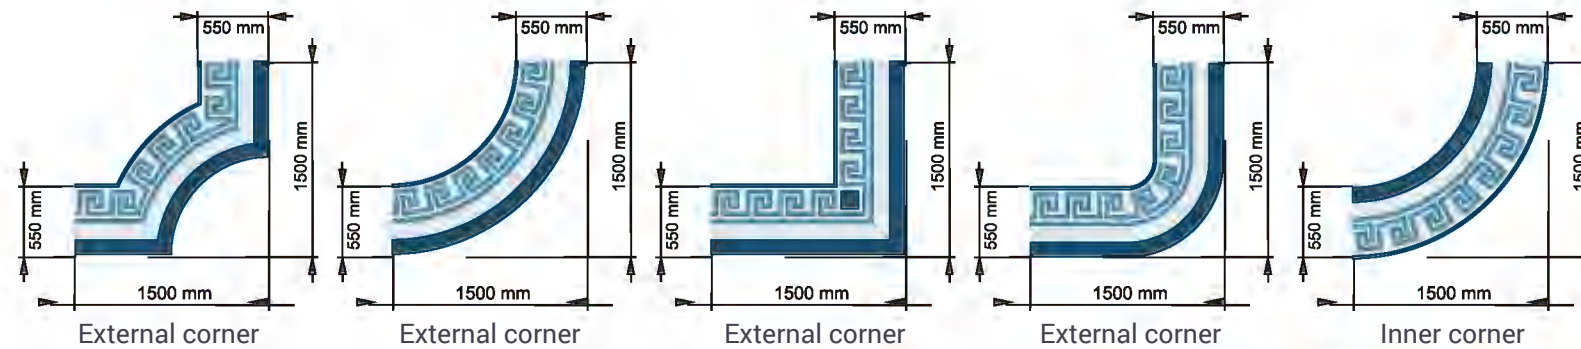

Basic element

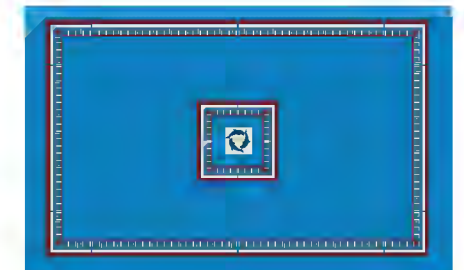

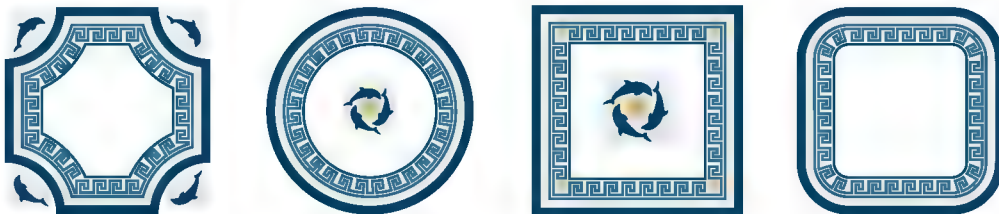

Whether round or square,
our shapes adapt to each other!

Display,
adjust,
set and done!

Corner variants

Floor design

Size: floor element 1500 x 1500 mm | 2000 x 2000 mm | 3000 x 3000 mm

Basic elements - modular system

GREECE 1

schwimmbad-designer.de

Questions?

How long do my designs last?

Durability depends on the maintenance of the pool. Avoid overdosing the care products. Keep the PH value of the water optimal, then you will enjoy your pool / swimming pool for a long time. The design membranes have a durability of between 5 and 10 years.

Where can I buy the products?

Of course online for the "Do it yourself" programs.
The better solution is via your business expert.
He can help you with the installation and give you good tips.
This guarantees a professional installation and therefore a long durability.

Can I have my own motifs / pictures produced?

The motifs should have a certain amount of data / resolution.
Our graphic designers and sales staff will be happy to advise you on your project.
or
Just send a request with a small sketch and a picture
of the swimming pool and her motive:
vertrieb@pool-design.eu

Where can I get pictures / motifs if I do not have my own?

There are enough picture portals that offer such pictures with corresponding resolutions, such as:
www.shutterstock.com
<https://stock.adobe.com/de/>
<https://www.istockphoto.com>
<https://de.123rf.com>
<https://de.depositphotos.com/>
<https://www.dreamstime.com>

Look for your desired motif, send us the picture number, leave it all to us!

Can I use a cleaning robot?

Yes, you can use a cleaning robot without restrictions.

How long does the production take?

We produce daily, normally it does not take longer than 4 weeks.

Where can I find installation instructions?

You can find laying instructions, films etc. on our website:
www.schwimmbad-designer.de ...and on YouTube: youtube.com/pool-design.

Up to what size can individual swimming pool membranes be produced?

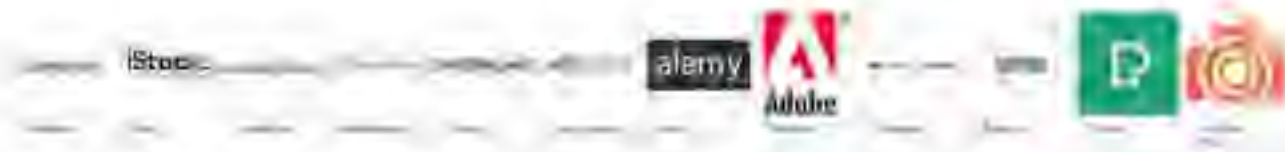

The web width is 1600 mm. Larger motifs are put together, as is usually the case with unprinted liner, to create your unique swimming pool.
There are no size restrictions.

Can I use the design sheets in already installed pools?

This is possible with restrictions. We would be happy to advise you on the implementation. You can use them in tiled pools, GFK pools, PVC pools, stainless steel pools, concrete pools and of course also in foil pools use our design sheets. The substrate must be specified exactly for this purpose, because we have certain primers (adhesion promoters) in our range.

What are the restrictions?

Not applicable are the products in so-called inflatable pools, Intex Pools, limited possible in steel wall basins. The pools / swimming pools should have a solid structure.

We will be happy to advise you!
Your Team from Pool-Design!

Design according to your

whim!

Are you still looking for the right specialist dealer to implement your desired design? On our homepage you will find a directory with all our specialist trade partners.
